About

Market leader in several industries

Stewarts & Lloyds is a leading steel, tube, and engineering product supplier in South Africa. Our markets include light and general engineering, mining, rural water, chemical, petrochemical, automotive, agriculture, water reticulation, building and construction, fire protection, and local authorities.

The group operates 34 branches throughout Southern Africa and recently opened a branch in Windhoek Namibia. Stewarts & Lloyds supplies steel and tube, pipe and fittings, valves, pumps, irrigation, fencing, profiling, and roofing products. Retail outlets at each branch sell a broad range of products, including pumps, generators, wires, valves, irrigation, fencing, and industrial hardware.

In 2023, Stewarts & Lloyds celebrates its 120-year anniversary. The company was established in Kimberley, where operations jointly began with Cape Town under the Lloyd & Lloyd name in 1898. It was later known as Stewarts & Lloyds (South Africa) Limited in 1903.

Stewarts and Lloyds' long-standing history of providing quality products has enabled it to build a loyal customer base that trusts the brand and its products. The company is committed to providing the highest service to its customers. It continually invests in its staff and branch network, ensuring customers have access to the highest quality products and advice.

A Proud History

120 years of excellence & quality

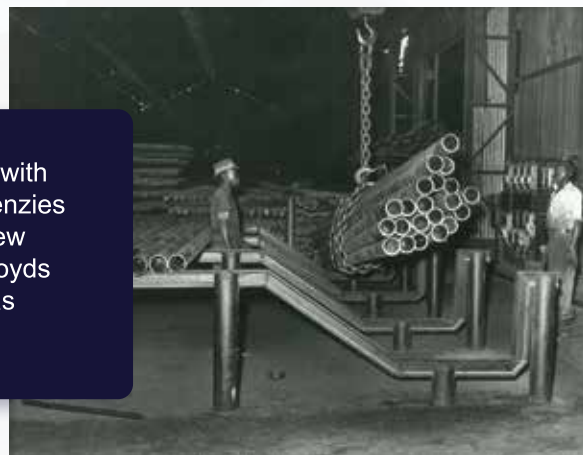

1898

British owned Lloyd & Lloyd opened branches in Cape Town and Kimberley with the intention of selling pipes and fittings for use on diamond mines. The product was shipped in from the parent company in England.

1903

The company merged with A & J Stewarts and Menzies also of Britain and a new venture, Stewarts & Lloyds was born. A branch was opened in Durban.

1927

Stewarts & Lloyds erected its first tube plant in Vereeniging which was later renamed TOSA (Tube makers of South Africa). It was also decided that the head office should be situated in Vereeniging.

1935

Further expansion of the plant undertaken by the installation of another complete push bench and in 1937 a high-speed seamless push bench of the latest design.

1943

A fully mechanised iron foundry and machine shop was established to manufacture pumps, valves and windmill parts for the agricultural industry which was adversely affected due to reduction in imports during the war.

1944

After the war production facilities were normalised to tube manufacturing. Copper tube was produced at Woodstock in the Cape. Several branches were opened around the country to service the needs of the mining, heavy engineering, wine and farming industries.

Est. 1903

A Proud History

120 years of excellence & quality

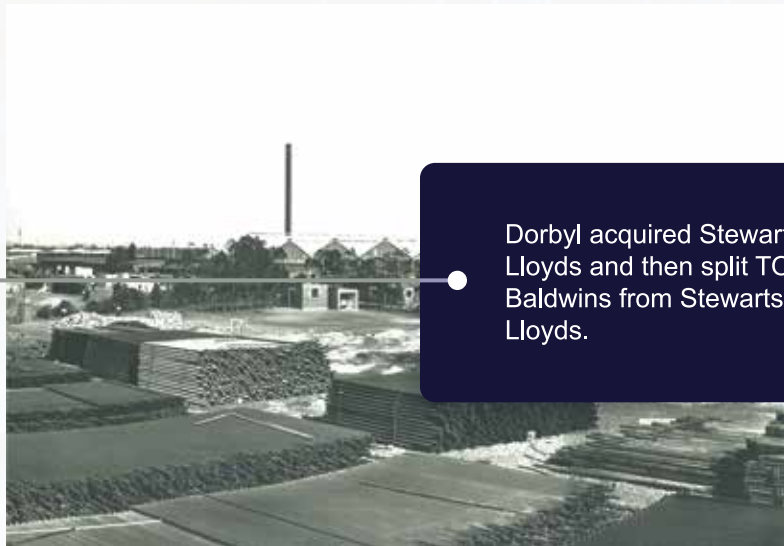

1971

- Stewarts & Lloyds bought Baldwins Steel merchants.

1985

- Dorbyl acquired Stewarts & Lloyds and then split TOSA and Baldwins from Stewarts & Lloyds.

1994

- Barlows' Robor acquired various divisions of TOSA and a 50% joint interest in Stewarts & Lloyds.

1998

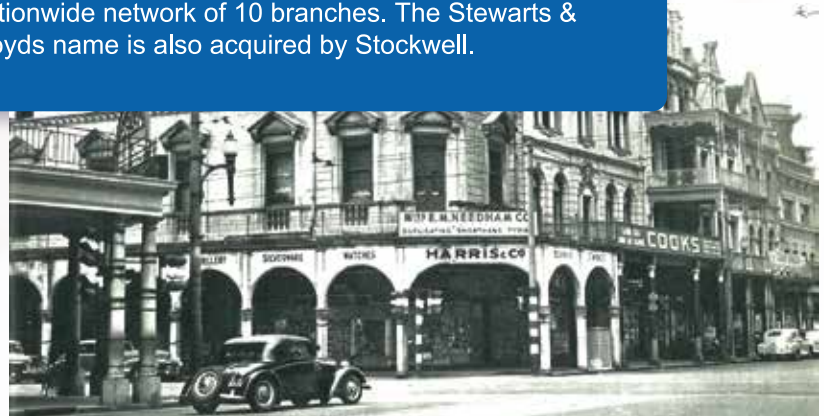

Robor took up balance of ownership and Robor Stewarts & Lloyds (RSL) with 30 branches countrywide was formed.

2001 to 2002

Stockwell acquires Stewarts & Lloyds.

Stockwell, a company of 15 years standing, in 2001, purchases Stewarts & Lloyds Bloemfontein, Kimberley, Witbank, Rustenburg, Wadeville and Vereeniging branches from Barloworld, to add to their current nationwide network of 10 branches. The Stewarts & Lloyds name is also acquired by Stockwell.

2003
to today

The joint CEO's of Stewarts & Lloyds are the original founders of Stockwell in 1988 and although they have the majority shareholding in the nationwide branch network, some equity has been transferred to the managers of individual branches which are managed by these shareholders.

The company's product portfolio has expanded from the traditional Stewarts & Lloyds offerings to include Steel & Tube, Pipes & Fittings, Valves, Pumps, Irrigation, Fencing, Profiling, Industrial Hardware and other retail products.

All Stockwell branches were renamed Stewarts & Lloyds. Stewarts & Lloyds has opened branches in Nelspruit, Klerksdorp, George, Mafikeng, Polokwane Port Elizabeth and Pretoria. In addition to these, the company has branches specialising in Irrigation, Fencing, Pumps, Valves, Pipes & Fittings, Steel & Tube.

Fencing

Steel

For industrial and commercial applications, we offer a wide variety of steel and tube products. All of our products are made with the highest quality materials and are tailored to meet your specific requirements.

You can get the products you need at affordable prices with our fast, reliable service. No matter what size you need, we can supply it. Aside from our own products, we also offer custom work, such as cutting, rolling, welding, and more.

Contact us to discuss any specific requirements and we'll get back to you quickly with a competitive quote and production schedule.

Sections

	Type	Size Range
	FLAT BAR <i>Mild Steel Commercial Quality</i>	12 x 3 mm - 90 x 25 mm
	FLAT BAR SABS 1431 / S355	100 x 6 mm - 300 x 12 mm
	CHANNELS SABS 1431 / S355	76 x 38 mm - 200 x 75 mm
	Parallel Flange CHANNELS SABS 1431 / S355	100 x 50 mm - 300 x 100 mm
	EQUAL ANGLES <i>Mild steel</i>	25 x 25 x 2 mm - 45 x 45 x 5 mm
	EQUAL ANGLES SABS 1431 / S355	50 x 50 x 3 mm - 200 x 200 x 20 mm
	UNEQUAL ANGLES SABS 1431 / S355	65 x 50 x 6 mm - 150 x 90 x 15 mm
	IPE SECTIONS SABS 1431 / S355	100 x 55 mm - 200 x 100 mm
	IPE AA SECTIONS SABS 1431 / S355	100 x 55 mm - 200 x 100 mm
	UNIVERSAL COLUMNS SABS 1431 / S355	152 x 152 mm - 305 x 305 mm
	UNIVERSAL BEAMS SABS 1431 / S355	203 x 133 mm - 533 x 210 mm

Open Sections (Cold Formed)

	Type	Size Range
	OPEN CHANNEL	50 x 50 x 2 mm - 100 x 50 x 3 mm
	LIPPED CHANNEL	75 x 50 x 20 x 2 mm - 300 x 75 x 20 x 3 mm
	LIPPED ANGLE (PURLINS)	75 x 50 x 20 x 2 mm - 125 x 75 x 20 x 2.5 mm

Steel

Round Bar, Square Bar & Drilled Rails

	Type	Size Range
	ROUND BAR <i>Mild Steel</i>	6 mm - 40 mm
	ROUND BAR <i>SABS 1431/S355</i>	30 mm - 100 mm
	ROUND BAR <i>Reinforcing HT Round Bar</i>	6 mm - 40 mm
	SQUARE BAR <i>Mild Steel</i>	8mm - 50 mm
	SQUARE BAR <i>SABS 1431/S355</i>	55mm - 150 mm
	DRILLED RAILS	15 kg x 7,5 M - 57 kg x 12 M
	WINDOW SECTIONS	T6 • TI3 • F4B • LT13 • LF7 LFX7 • PF7 PFX7

Structural Tube

Stewarts & Lloyds Hot Rolled Tubing is made to the **SABS 657/1** standard, ensuring the highest quality. Our tubing is appropriate for use in a variety of industries and can be customized to your exact requirements.

	Type	Size Range
	ROUND <i>SABS 657/1</i>	12.7 x 1.6 mm - 219 x 6.0 mm
	SQUARE	12.7 x 12.7 x 1.6 mm - 400 x 400 x 10 mm
	RECTANGULAR <i>Also available in SABS 1431 S355</i>	25.4 x 12.7 x 1.6 mm - 300 x 240 x 10 mm

- Cold Rolled: Round, Square, Rectangular
- Borehole casing
- Hollow bar

Sheet & Plate

Sheets and plates are two of the most fundamental elements in metalworking. Often overlooked, they play a crucial role in engineering, construction, and automotive applications. We have produced some of the best quality sheets and plates for a very extensive range of industries. These include:

- **Construction** - our products include colour bonds, siding, roofing, safety barrier sheeting, etc.
- **Materials Handling** – including conveyors, bulkheads, and walls for sluice gates.
- **Transport** - including heavy steel plates for the automotive, rail, and agricultural industries.
- **Engineering** – providing the finest quality industrial plates for various industries such as the process, power, and marine industries.

Furthermore, we also provide steel on coils and a cut-to-length service which includes:

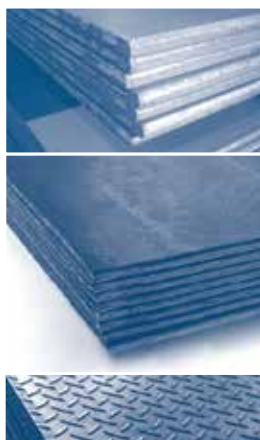

- Cut to Size (Any Length)
- Cut to Length (Specified Lengths)
- Steel on Coils.

Sheets

	Type	Size Range
	SHEETS <i>Commercial Quality- Hot Rolled</i>	2450 x 1225 mm - 4000 x 1800 mm 1,6 mm - 4,0 mm thick
	PICKLED & OILED	2450 x 1225 mm 2,0 mm - 4,0 mm thick
	SHEETS <i>Commercial Quality- Cold Rolled</i>	2450 x 1225 mm 0,5 mm - 2,0 mm thick
	CHROMODEK <i>Zinc coated plus two coats of paint (polar white)</i>	2450 x 1225 mm - 3000 x 1225 mm 0,58 mm - 0,8 mm thick
	CHROMAPREP <i>Epoxy primer top & bottom</i>	2450 x 925 mm - 2450 x 1225 mm 0,8 mm & 1,0 mm thick
	GALVANISED SHEETS <i>Commercial Quality- Spelter Z275</i>	2450 x 1225 mm 0,5 mm & 3,0 mm thick
	ROOF SHEETING <i>IBR/Corrugated/Chromodek/Polycarb/ Fibreglass/Bullnose/Cranked Sheets</i>	• 0,27 mm • 0,30 mm • 0,40 mm • 0,47 mm • 0,50 mm • 0,53 mm • 0,58 mm • 0,80 mm 1,8 - 14M
	ROOF SHEETING COATINGS	• Z 100 • Z 150 • Z 160 • Z 200 • Z 275 • AZ 150

Sheet & Plate

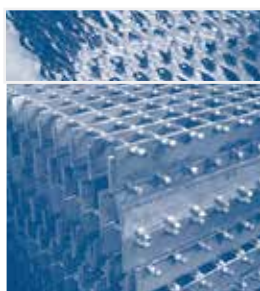

Plates

	Type	Size Range
	PLATES <i>Commercial Quality</i>	2500 x 1200 mm to 10000 x 2400 mm 4,5 mm to 25 mm thick
	PLATES <i>SABS 1431 / S355</i>	2500 x 1200 mm to 13000 x 2400 mm 4,5 mm to 150 mm thick
	BOILER PLATES <i>151 / 161 / 430A</i>	4000 x 2000 mm to 13000 x 2400 mm 5,0 mm to 80 mm thick
	HARD WEARING PLATES <i>SS 10 / 200 (BENNOX)</i>	2500 x 1200 mm to 4000 x 2000 mm 3,0 mm to 50 mm thick
	CORROSION RESISTANT PLATES <i>WR50 / B1 (CORTEN)</i>	2500 x 1225 mm to 4000 x 2000 mm 1,6 mm to 20 mm thick
	FLOOR PLATES <i>Checker / Vastrap</i>	2500 x 1200 mm to 8000 x 1200 mm 3,0 / 4.6 mm to 8,0 / 9,6 mm thick

Expanded Metal & Grating

Stewarts & Lloyds offers the highest quality expanded metal products on the market. Our unique manufacturing process produces a stronger and more durable product than any other option available. Our expanded metal is often referred to as the finest product in the industry.

The unique manufacturing process we use to produce our expanded metal is invaluable, as it provides a superior strength-to-weight ratio that ensures our product's durability and dependability.

	Type	Size Range
	MESH <i>Small, Medium & Large</i>	2400 x 1200 mm
	GRATING	2400 x 1200 mm
	TRENCH COVERS	325 x 1000 mm - 500 x 1000 mm
	STAIR TREADS	600 x 205 mm - 1000 x 285 mm

Stairway, Handrails & Accessories

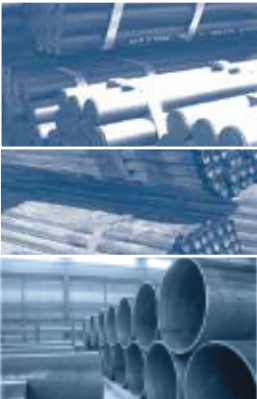

- Uncoated or galvanised
- Complete range of top mounted and side mounted stanchions
- Bends
- Accessories

Pipes & Fittings

Stewarts & Lloyds has supplied the highest quality pipes and fittings since 1854. Our products are used in some of the most prestigious projects around the world, from hospitals to schools to airports. We take pride in our products, and we know you will be satisfied with your purchase.

We offer a comprehensive range of products and all items are available for immediate dispatch. Please browse our website to view the full range. However, if you do not see what you require please contact us. We will be more than happy to assist you in sourcing your requirements at competitive prices.

Pipes

	Type	Size Range
	SEAMLESS PIPES ANSI B36.19 & B36.10 ASTM A106 / Grade B A53	6 - 600 NB
	WELDED PIPES SANS 62 (Medium & heavy wall) SANS 1182 (Light & ultralight)	20 - 150 NB 50 - 200 NB
	LARGE BORE (ERW Welded) SANS 719, Grade C & API 5 L x 42	200 - 600 NB available in different wall thicknesses
	LARGE BORE (Spiral Welded) SANS 719	700 - 1200 NB available in different wall thicknesses

- PVC Plastic pipes
- HDPE pipes

Fittings

	Type	Standard/s
	STEEL Nipples & bends	SANS 62 / 1971 as amended / EN-10241
	WROUGHT STEEL Elbows, tees, crosses, plugs & sockets	BS 1740 / EN-10241
	MALLEABLE CAST IRON Bends, elbows, tees, sockets, bushes, unions, plugs & caps (in black & galvanised)	SANS 509 / EN-10242
	FORGED STEEL Thread / socket weld	ANSI B 16.11 / ASTM A 105 NPT
	BUTTWELD SEAMLESS Schedule 40, 80, standard & extra strong wall thickness for use with seamless pipe	ANSI B16.9 / ASTM A 234
	BUTTWELD WELDED JIS For use with welded pipe, small & large bore	B 2311

Pipes & Fittings

Flanges

Stewarts & Lloyds carry only the highest quality flanges made from the finest materials available. All our flanges are fashioned using the latest technology, ensuring you get the maximum strength for your money. These products also tend to be more resistant to corrosion and thermal expansion, prolonging their life expectancy.

Type	Size Range
PLATE BS 4504, BS EN 1092, SANS 1123 & BS 10	Slip - on welding, blind, threaded
FORGED ANSI B.16.5	150 & 300 pound. Slip - on welding, blind, weld neck
GALVANISED BACKING RINGS Table D, 1000 & 1600	for HDPE pipe

Valves

Stewarts & Lloyds valves can be used across most industries including Water reticulation, Fire Protection, Irrigation, Sewage, Mining, Power Generation, Manufacturing, Oil, and Gas. We also supply non-standard valves which can be adapted to your specific requirements. We'll work with you to ensure you get the right valve to keep your equipment working at its finest.

Brass Valve Type	Cast Iron Valve Type
<ul style="list-style-type: none"> • BALL • GATE • SWING CHECK • SPRING CHECK • Y STRAINERS • GAS • FLOAT • STOP COCKS • BRASS BIBCOCKS AND TAPS • FOOT • PRESSURE REDUCING 	<ul style="list-style-type: none"> • RSV GATE • EQUILIBRIUM FLOAT • BUTTERFLY • SWING CHECK • DOUBLE DOOR WAFER CHECK • Y STRAINER'S • KNIFE GATE • DIAPHRAM

Accessories

- Flange adaptors
- Rubber bellows – expansion joint
- Gaskets
- Bolts and nuts
- PTFE tape
- Hemp & stag

Pumps

Stewarts & Lloyds Pumps supplies a wide range of pumps and accessories suitable for various applications and industries.

Surface

- Salflo Centrifugal
- Multistage
- Vertical & Horizontal Multistage
- Self Priming
- Peripheral
- Progressive Cavity
- Dosing
- Solar
- Swimming Pool Pumps
- House boosters
- Irrigation Boosters
- Twin booster sets
- Pump control equipment
- Variable Speed Drives
- Energy saving devices
- Commercial and Industrial reticulation booster sets

Borehole

- SalSolar
- Mono Positive Displacement
- Climax Windmills
- SalSolar

Submersible

- Drainage
- Sewerage
- Dewatering
- Fountain
- Slurry Pump

Partner Brands

Pumps

Windmills

Stewarts & Lloyds Pumps has manufactured and supplied Climax windmills since 1942 after acquiring the South African license from Thomas & Son. Records show that by 1974 over 150,000 units had been manufactured and by 1996 over 200,000 units had been made.

WHEEL SIZES	2.4, 3.0, 3.6, 4.2, 5.2, 6.3, 7.5 metres
TOWER HEIGHTS	6, 9, 12, 15 metres
HEAD	up to 216 metres
FLOW	up to 86 000 litres / day
CYLINDER DIAMETER	32 to 115 mm

Irrigation

Stewarts & Lloyds Irrigation supplies irrigation equipment suitable for various applications including:

- Commercial & residential irrigation systems and design
- Automatic and manual irrigation systems
- Irrigation systems and equipment for agriculture and farming
- Irrigation systems for turf, golf courses, and sports fields
- Rain water harvesting
- Drip irrigation systems

Products

- Static/Cone spray heads
- Impact sprinklers
- Rotors/Gear drive sprinklers
- Electric/Solenoid valves
- Controllers
- Central control systems
- Water tanks
- Full range of accessories

Irrigation Design & Technical Support

Stewarts and Lloyds offer Irrigation Design Services. We offer design assistance and advice on irrigation system specifications. Contact your nearest branch for assistance.

Irrigation

Pipes

Type	Size Range
HDPE PIPE <i>SABS 533 & non SABS</i>	16 - 63 mm outside diameter - 100m coils 75 - 110 mm - 50m coils Larger sizes available on request
LDPE PIPE <i>non SABS</i>	15 - 50 mm - 100m coils Larger sizes available on request
PVC PIPE <i>SABS 996 (1)</i>	6m length socketed
MPVC PIPE <i>SABS 966 (2)</i>	6m length socketed 50 - 500 mm OD
OPERATING PRESSURES	4 - 25 bar

Water Tanks

- Vertical
- Horizontal
- Slim

Climax Tank Stands

- Galvanised or unpainted
- Suitable for 2500 / 5000 / 10 000 L tanks
- Available in 3m / 6m / 9m

Plastic Fittings

Type	Size Range
COMPRESSION <i>For use with HDPE pipe</i> <i>16 bar working pressure</i>	16 - 110 mm Operate at up to 80° C
FULL FLOW <i>For use with LDPE pipe</i> <i>Class 3</i>	12 - 25 mm
NYLON INSERT & CLAMPS <i>For use with LDPE pipe</i> <i>Class 3 & 6</i>	12 - 80 mm
PVC SOLVENT WELD <i>For use with PVC pipe</i>	16 - 400 mm

Security, Welding & Hardware

Security

We advise you on the best products to keep you and your assets secured.

- Locks
- Razor wire
- Wall spikes
- Electric gate motors
- Hinges, chains, hand cleaners
- Palisades and fencing
- Ornamental castings

Welding

- Welding machines
- Welding rods
- Helmets
- Inverters, clamps and electrode holders
- Cutting and grinding discs
- Fixings including:
 - Expansion bolts
 - Coach and tek screws

Security, Welding & Hardware

Hardware

Stewarts & Lloyds Hardware is a "one stop shop" for anyone looking for steel and tube, and steel related hardware including:

- Ladders and castors
- Pole caps and base plates
- Hand tools, Power tools and Drill bits
- IBR and corrugated roofing
- Window fittings, Sliding door gear

Fencing

Stewarts & Lloyds fencing offers high-quality, durable fencing options for your home or business. Our fencing is made of the finest materials and designed to withstand even the harshest conditions. Our products are also backed by a lifetime warranty, so you can rest assured your investment is protected.

We offer a variety of fencing options, including chain link and metal fencing. Our metal fencing is available in a variety of styles, including privacy fencing, security fencing, and pool fencing. We also offer a wide range of gate options to complement any fence. No matter what your needs are, we have a fencing option that is just right for you.

ICU security fencing is one such product that Stewarts & Lloyds has started supplying. It is quickly establishing itself in a very competitive market as a high-quality security fence, with the support of branches countrywide and in Windhoek, Namibia.

ICU Fencing - Visible Security you can rely on

Our range of fencing solutions is the preferred choice when specifying and selecting a high-quality, affordable range of high security and perimeter fencing.

High Security Mesh Panels

Perimeter Mesh Panels

Econoline Powder Coated

Mesh Hole Aperture	76.2 mm (Horiz) x 12.7 / 25 / 50 mm (Vert)
Wire Rod Coated	3 mm (Horiz) x 4 mm (Vert)
Panel Sizes	2.4 / 2.2 / 2.0 / 1.8 / 1.2 m H x 2.9 W
Rigidity	Horizontal V Bends acc. to Height
Fench Finish	Galvanized wire / Powder coated / PVC coated

Coatings

Pre-Galvanised

An elegant, yet cost-effective solution for inland applications. All welded mesh panels are pre-galvanized.

Polyester Powder

Plascoat/PVC final coat on pre-galvanized wire fence panels for coastal applications.

Plascoat/PVC

Exterior, UV-resistant Polyester Powder Coating is available as the final finish for all pre-galvanized wire fence panels and components.

Manufacturing

Fencing Division

Stewarts & Lloyds is the leading supplier of palisade fencing in South Africa. We offer a wide range of products, including cold-formed and hot-rolled palisade fencing. Our products are manufactured from high-quality materials, ensuring strength and durability. We also offer a wide range of colours, making it easy to find the most suitable fencing for your property.

Cold formed palisade

Type	Size Range
CR 40 X 40 PALISADE PAILINGS <i>Panels in 7 & 3 spike</i>	Length 300 - 3000 mm
CR 30 X 30 PALISADE PAILINGS <i>Panels in 7 & 3 spike</i>	Length 300 - 3000 mm
30 X 30 CR PANELS	16 or 19 palings
40 X 40 CR PANELS	16 pales

Hot rolled angle palisade

Type	Size Range
HR 40 X 40 PALISADE PAILINGS <i>Panels in 7 & 3 spike/ devils fork</i>	Length 500 - 3000 mm
HR 30 X 30 PALISADE PAILINGS <i>Panels in devils fork</i>	Length 500 - 3000 mm
HR 25 X 25 PALISADE PAILINGS <i>Panels in devils fork</i>	Length 500 - 3000 mm

Galvanised palisade

Type	Size Range
30 X 30 & 40 X 40	Height: 1200 - 2400 mm

Gate Manufacturing

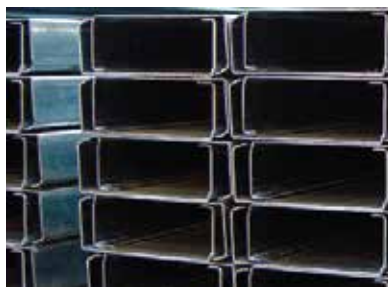

Type	Width	Length
PEDESTRIAN GATES	800 - 1500 mm	1200 - 3000 mm
SLIDING OR SWING GATES	1500 - 6000 mm	1200 - 3000 mm

Manufacturing

Open Section Division

Stewarts & Lloyds' steel open sections are ideally suited to a wide range of construction and fabrication applications. Our high-quality steel products are precision-engineered to meet your exact specifications, so you can be sure they will perform reliably every time. We offer a wide range of products to meet your construction needs. Our offerings include cold-formed steel floor joists, open web steel floor beams, wide flange beams, and purlins, HSS steel beams, and long-span mild steel I-beams.

All our open sections are available in sizes up to 100 inches high by 60 inches deep. We offer open steel sections in various lengths, widths, and thicknesses to meet your requirements. We produce our open section beams using hot rolled or cold formed mill quality steel sheets, often coated with zinc to resist weathering. Our open steel sections are easy to cut, bend and shape into almost any size or configuration.

Type	Size Range
UNCOATED LIP CHANNEL	75 x 50 mm to 250 x 75 mm Thickness: 1.6 to 3.0 mm Standard lengths: 6 & 9.144 m carried ex stock Max length: 14 meters
PRE GALVANISED LIP CHANNEL	
LIP CHANNELS	

Roofing Division

Stewarts & Lloyds roofing products are the logical choices for your next roofing project. Our products are made from top-quality materials and backed by a warranty, so you can be sure your newly installed roof will last for years to come. We offer a complete line of roofing products ideal for any job.

Type	Size Range
CHROMODEK ROOFING <i>Various colours available</i>	0.25 to 0.58 mm
IBR ROOFING	0.25 to 0.58 mm
CORRUGATED ROOFING <i>Commercial Quality- Cold Rolled</i>	0.25 to 0.58 mm

Manufacturing

Plasma & Profile Division

With a long history of excellence, we provide reliable and precise plasma-cutting services perfect for any project. From small home projects to large commercial ventures, our team of experts can handle it all easily. We also offer mobile plasma cutting services, so we can come to you.

Our guillotining service is available in steel, aluminum, and brass. We can also cut through plastics and non-metallic materials. Laser cutting, bending, chamfering, and plate rolling services are also offered.

Type	Size Range
PLASMA CUTTING <i>Max 30 mm thickness</i>	Max 12 x 3 m bed size
PROFILE CUTTING <i>Max 300 mm thickness</i>	Max 12 x 3 m bed size
GUILLOTINING <i>Max 6 mm thickness</i>	Max 12 x 3 m bed size

Coil Processing Division

Stewarts & Lloyds offers the best coil processing technology. Our advanced systems precisely and efficiently cut, shape, and form metal coils. We work with leading manufacturers to provide custom-made coil processing solutions.

We offer a full line of coil processing equipment such as deburring, beveling (with 5-axis capability), sawing, shearing, and gapping. We have a proven track record of designing innovative solutions to meet your needs – from concept to design through to production.

Type	Size Range
PRIMARY SLITTER	Thickness - 0,6 to 3,0 mm Width - 25 - 1400 mm
MINI SLITTER <i>For narrow widths</i>	Thickness - 0,6 to 3,0 mm Width - 12 - 25 mm
CTL LINE	Thickness - 0,6 to 6,0 mm Max width - 2000 mm, Max length - 6000 mm

Hardware Division

- Wall spikes
- Post caps
- Discs
- Hinges
- Lugs
- Lock boxes
- Twisted bar

Projects & Contracts

Committed to providing our customers from a vast product offering & with leading advice

Stewarts & Lloyds Projects and Contracts (Pty) Ltd was established on 01 August 2022. A subsidiary of Stewarts & Lloyds Holdings and a Level 2 B-BBEE company that is significantly changing the civil and construction projects industry across the nation.

We are a certified provider of high-quality branded engineering, civil, mining, water, gas, steel, building construction, hardware, and plumbing materials through a strategically positioned distribution network throughout the Republic of South Africa and a few other African nations.

We offer over 20 000 product lines and fuse strong relationships with technical skills and a deep kinship to our craft. This is to deliver projects that benefit communities and advance businesses. In this regard, the aspects of safety at work and protecting the environment are integral components of everything we do.

Stewarts & Lloyds Projects and Contracts (Pty) Ltd is committed to providing you, our esteemed customers, with advice on the right materials, products, and processes to maximise the value of your investment.

We specialise in supplying big projects and offer flexible project funding terms with adequate payment security. This flexibility allows contractors to concentrate on delivering their projects while we take care of the supply of materials. We will gladly negotiate options case-by-case.

STEWARTS & LLOYDS Projects and Contracts is level 2 B-BBEE

Value-Added Services

Strengthening value where it counts

Stewarts & Lloyds Steel Service Centre provides a range of services from steel cut to size to pipe fitting fabrication. We also offer an irrigation design service and provide assistance with pump selection.

Irrigation Design

Stewarts and Lloyds offer an Irrigation Design Service to customers. We offer design assistance and advice on your irrigation system specifications. Get in touch with your nearest branch for assistance.

Pump Selection

Stewarts and Lloyds assist customers with pump selection. Speak to one of our pump specialists to assist with selecting the right pump for your industry application.

Pipe Systems

Stewarts & Lloyds offers customer-integrated piping solutions with pipe, fittings, jointing, and flow control components. These systems are manufactured to meet your project designs and specifications including coatings and linings.

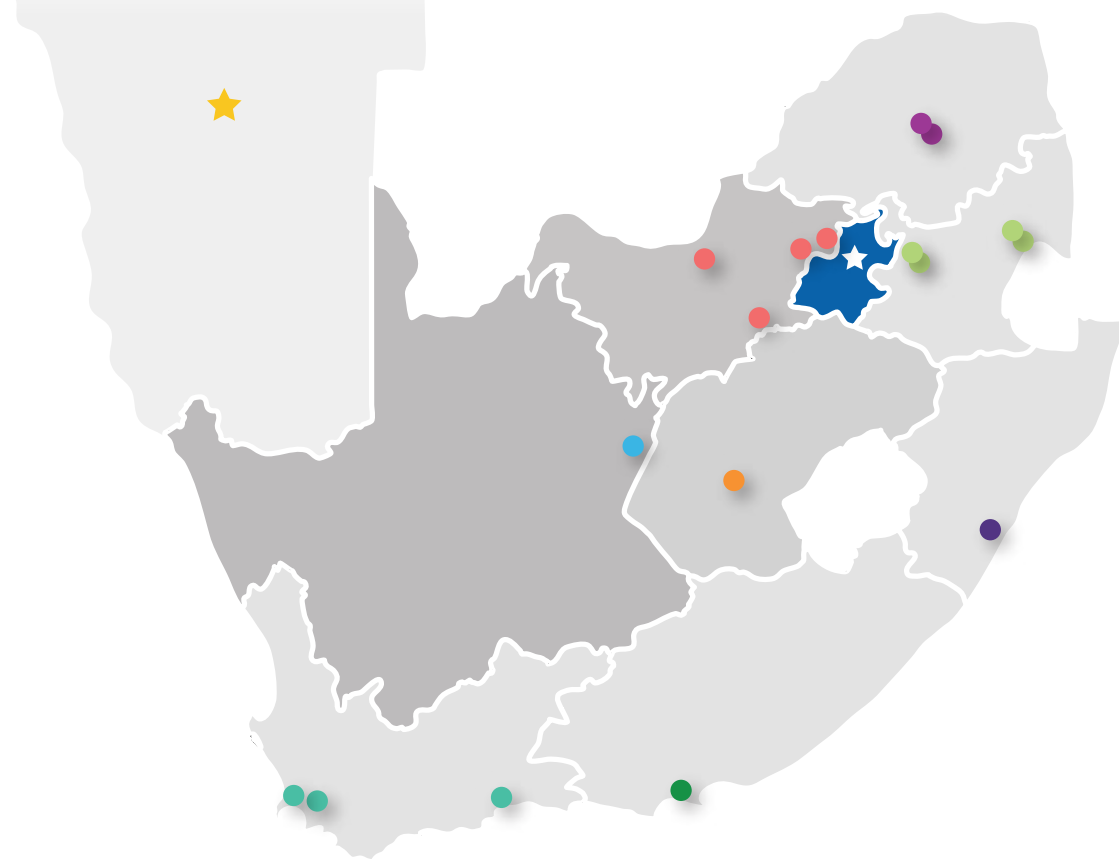

Our systems include:

- Plain end and coupled
- Screwed or threaded and socketed
- Grooved end and coupled
- Shouldered, either Ring end or Stub end and coupled
- Socket-ended
- Flange to flange
- Stub and flange
